

July 18, Sixteenth Sunday in Ordinary Time

Watch Livestream

Readings for Mass

Confessions will not be heard on Tuesday, July 20.

Our parish office is looking for parishioners to volunteer to help with the counting for our weekly collections. We are looking for regular counters who can commit to once a month, as well as subs to call when needed. A background authorization check will be needed. Please contact Tamara VanEe for more information at 616-842-0001 x118 or [email](#).

From Our Faith Formation Team

Thanks to everyone who joined us for a great night of baseball on Tuesday night! More than 50 parishioners enjoyed an evening of baseball & fellowship.

August 1 @3:30

Join us at Rycenga Park for a friendly Kick Ball Game and a picnic to follow.

From Love In Action of the TriCities!

Thank you Second CRC, **St. Patrick's youth**, & faithful volunteers for providing 275 individuals from 91 households with food this morning! 36% were seniors from our area. Second CRC provided the funds to share about 90 lbs of food per family. What a blessing to share with each other!

Job Opportunity: Youth & Young Adult Minister

MIGRANT MINISTRY

Thank you so much for your generous donations! The migrants have been extremely appreciative of the food and clothing. They've also enjoyed the opportunity to attend Mass on Wednesday and Sunday nights (at the camps).

As the camps continue to fill up, we're currently seeking the following items: shampoo, dried pinto beans, and white rice. These items may be placed in the Migrant Ministry box (in the west entrance).

If you're interested in volunteering, please contact **Micanna**.

From Our Charity & Justice Team

This week is our final opportunity to ensure members of Congress hear from their constituents.

STOP TAXPAYER ABORTION

Contact Congress!

OVERVIEW

What:

Powerful Members of Congress are trying to force Americans to pay for abortion.

How:

The Hyde Amendment and similar laws have protected taxpayers from funding elective abortion for 45 years, saving 2.4 million babies. Now, powerful members of Congress want to take away these laws that both Democrats and Republicans have supported for nearly half a century.

What happens without these protections?

Billions of taxpayer dollars could be used to pay for abortion.

How to stop taxpayer-funded abortion:

A massive number of people contacting their Members of Congress

TAKE ACTION!

Call your Members of Congress using the information provided below. Tell them to save innocent lives by protecting the Hyde Amendment.

WHAT TO SAY

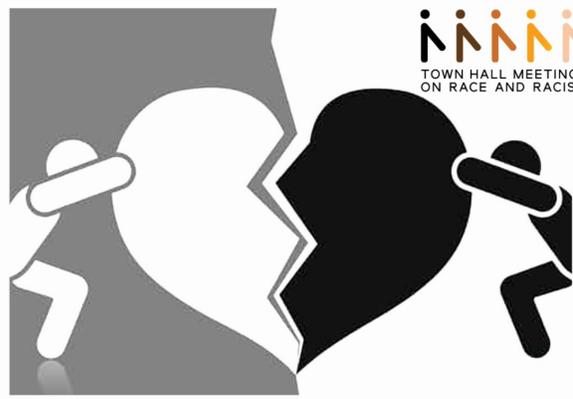

- I'm a constituent of Representative / Senator _____.
- Regardless of where one stands on abortion, there's been a long-standing, bipartisan agreement that taxpayers shouldn't have to pay for it.
- I urge Representative / Senator _____ to protect the Hyde Amendment and to oppose any bill, including appropriations bills, that expand taxpayer-funding of abortion.

OUR MEMBERS OF CONGRESS

Say Yes to Sun Protection — Say No to Skin Cancer: Skin cancer is the most common cancer in the U.S., but it is also one of the most preventable cancers.

One in five Americans will develop skin cancer in their lifetime, and nearly 20 Americans die from melanoma, the deadliest form of skin cancer, every

Say YES to Sun Protection
Say NO to Skin Cancer

Skin cancer is the most common cancer in the U.S. One in five Americans will develop skin cancer in their lifetime, and nearly 20 Americans die from melanoma, the deadliest form of skin cancer every day.

Since exposure to the sun's harmful UV rays is the most preventable risk factor for skin cancer, protect your skin by:

- Seeking shade
- Wearing sun-protective clothing
- Applying sunscreen to all skin not covered by clothing

There are two types of sunscreens:

Physical Sunscreen

This sunscreen works like a shield. It sits on the surface of your skin, reflecting the sun's rays.

Look for the active ingredients zinc oxide and/or titanium dioxide.

Opt for this sunscreen if you have sensitive skin.

Chemical Sunscreen

This sunscreen works as a sponge, absorbing the sun's rays.

Look for one or more of the following active ingredients: oxybenzone, avobenzone, octisalate, octocrylene, homosalate, and octinoxate.

This formulation tends to be easier to rub into the skin without leaving a white residue.

If you have concerns about certain sunscreen ingredients, use the information above to choose an alternative that works for you. As long as it's broad-spectrum, water-resistant and has an SPF 30 or higher, it can effectively protect you from the sun. Make sure you reapply it every two hours, or after sweating or swimming.

To learn more about skin cancer prevention and detection, talk to a board-certified dermatologist or visit SpotSkinCancer.org

spot skin cancer

day. Reduce your risk of skin cancer by protecting your skin from the sun's harmful UV rays. Follow the tips in the infographic below and #PracticeSafeSun every time you are outdoors.
